Advantec Manufacturing Canada (AMC) specializes in design, engineering and manufacturing of speciality application marine closures and cranes. AMC is committed to delivering solutions to exceed customers and stakeholders' requirements by practicing the following principles.

QUALITY - Measuring and monitoring all processes to guarantee their efficiency and effectiveness and provide opportunities for continual improvement.

COST - Collaborate with our customers to provide appropriate products and services at an optimum cost.

DELIVERY - Meeting our customer's product needs within agreed timelines.

Matt Kirby

Vice President – Marine
